PROFESSIONAL EXPERIENCE

Front End Developer

Freelance - San Juan, 2023 - Present

I worked as a Front End developer, participating in projects from concept to final implementation. I contributed to creating web solutions using modern technologies and supported the team with code reviews and technical advice.

- Developed a question system where correct answers earned participants a ticket for a contest (Productrivia). **Technology used:** React.js. **Team size:** 5 people. **Duration:** 1 week.
- Design and development of a medical system. **Technology used:** Figma, Blade-Laravel. **Team size:** 2 people. **Duration:** 3 months.
- Created the layout and features for a landing page (Nubecode). **Technology used:** Blade-Laravel, Trello. **Team size:** 4 people. **Duration:** 2 weeks.
- Design, web development, and features for a customer-waiter interaction system for restaurants (NubeMenu). **Technology used:** Figma, Next.js. **Team size:** 2 people. **Duration:** 1 month and 2 weeks.

Jr. Front End Developer

NodosHub - San Juan, 2022 - 2023

As a junior Front End developer, I focused on solving code issues and improving web layout within tight deadlines. I integrated new features and refactored legacy code, contributing to bug fixing and product optimization.

- Web layout work on an institute management system that enhances interaction between students and the institution (CIICAP). **Technology used:** React.js, Trello. **Team size:** 4 people. **Duration:** 2 months.
- Web layout work on a worker selection system that streamlines HR recruitment processes (Jose Maria Minería). **Technology used:** Next.js, Trello. **Team size:** 4 people. **Duration:** 3 months.
- Maintenance of different websites. **Duration:** 1 year.
